It is quite certain that the Douglas men are hors du combat, as New York will vote to-morrow to admit the Seceders. In fact the amendment offered to-day by Gilmore, of Ps., came from or wes prompted by the New York delegation. When the previous question was seconded, the motion to adjourn came from Richardson. This was another had omen for Douglas. The Seceders are in high glee to-night, and are already counting their chickens. Douglas stock is very much depressed.

Milwaukee is "badly off" for water. It has long been known that the sanitory condition of a city depends, in a great measure, on the supply and quality of its water. The supply should be inexhaustable. It ought to flow from every corner. But let a stranger walk up East Water street, how far will be have to travel to find a well, or a pump? If he is thirsty and turns in at a lager beer sign, who will blame him? If water is of sufficient tion: importance to stir up the corporations of such cities as London and New York, to provide public drinking fountains along the thoroughfares, it is worthy the attention of Milwan kee, where one must walk half a mile to

The idministration Censured. The vote of consure passed by the House of Representatives upon President Bechan-As and Secretary Provider corrupt and improper practices in the the management of the Navy Department, conveys a stinging rebake to those officials. It is the first time in the history of the country that the House has formally rebuked the President, and the large majority by which these resolutions were adopted, 119 to 60 gadds to the significarrie of the censure. Such a vote, in the Billish House of Commons, would lead to the instant resignation of the ministry; but our Democratic Administration are so lost to all a mar of shame and so regardless of the w dire of the People, that, though rebuked and repudiated by Congress and the country, they still elling to the offices which they have ductions and the power they have abused. But the day of reckoning is drawing near .-The halistet x will, in November, issue its properties year; and the disgraced Administration of Janes Buchanan will be expelled from the capital.

The New York Evening Post very justly of Representatives to watch over the interests of the House of Representatives to watch over the interests of its constituents. If a pullife officer is suspected in the constituents of particles and reciprocal privilegs upon the people of both countries. The advocates of the Utopian theory, universal free trade, were led to believe that it was at least an important step in the case. No matter that the mutual benefits and blessings to follow from it would vindicate the practical wisdom of that theory win-ther that officer is one of its own doorkeep-reform member of the Cabinet, the Hopse is isound to look up the fraud. In no ether way, often, are malversations to be detested. Regues, both in and out of office, are and to cover up their trocks; and even with all the phyantages enjoyed by investigating committees, to send for persons and papers, it is difficult to trace the wrong, or to is the responsibility on the proper crim-

" The House of Representatives in its reent inquiries into the deings of the President and his principal agents, has rendered au essential and important service to the public. Rumors of gross corruptions were sorted, and it was proper that these rumors about he investigated. When the result of the in ulty, increaver, proved that the President and Secretary of the Navy had been disposing of their patronage, regainst the Theorem 19 patronage, regainst the Theorem 19 patronage in the patronage in the theorem 19 patronage in the patronage in the

is a largely of the same opinion. Onto functivities—administration democrats in the flows—, only sixty five could be found will though to by the vote of censure on the table. Many of them, it is to be presented, did not so much question the truth of the allegations and his time power of the House to censure, but all the other members, the Republicans, the South Americans, the Anti-Lecompton be moved in the productions of our own divisions in our own markets. View the treaty from whatever standpoint you may, it presents the same forbidding aspect. Its effects upon our public revenues and the private interests of our citizens are alike permissions. All the country, we imagine, outside of the treaty from whatever standpoint you may, it presents the same forbidding aspect. Its effects upon our public revenues and the productions of our farmers and mechanics, our manufactures will be of the same originar? custom-houses, will be of the same opinion."

This is another of the partizan calumnies with which the organs of the Sham Democraby now daily teem. Here is the refutation of

the parity story:

THE GREAT EASTERN.-It has been decided to moor the Great Eastern near the Hammond street pier, on the North River. The wharf is nearly 1,200 feet long, so that she will have plenty of room, lying with head or stern in the dock, and be clear of passing vessels. To give the required depth, it has hen found necessary to dredge out a portion of the slip which the monster ship will oc cupy. A gate across the head of the wharf will enable the managers to control the multitude which will flock on board, by issuing tickets of admission. There are various conjectures as to the time she will occupy in coming across; the majority of nautical men leing disposed to give her full ten days for and Latham. of her arrival, and to obtain a full-length view of the great ship as she passes through the Narrows. As Boon as she is announced in the offing steamers will also start to meet

Mr. Simmons demonstrated that the present revenues were insufficient, and it was the

passengers to Sandy Hook or the Southwest Spit. Should she arrive off the bar at a low tinguish the floating debt of \$21,900,000, and to provide the means for its extinction.

These arguments produced no effect on the for high water, which will give sufficient time for parties to go down and escort her up. The public expectation is on tip-toe, and indicates that the excitement attending the arrival of the Great Eastern will, for a time, eclipse the Japanese Embasay. The "Reciprocity Treaty." As the abrogation of this Treaty is now strongly talked of, and our merchants and

business men will be called upon, in a few days, for an expression of their opinion on the subject through the Chamber of Commerce, the following sketch of a speech on practical workings, delivered recently in the House of Representations by Mr. ELT of N. Y_{-1} may be found interesting. Without stopping to discuss the matter, we believe the sentiments Mr. Bur expresses are those of nine-tenths of the Merchants and business

sine-tentla of the Merchants and business men of this city:

Mr. Ely (R-p., N. Y.) indicated the points of a speech. On the 26th of March last he had the honor to move a resolution, which had the honor to move a resolution, which was adopted by the flouse, but to which no response has yet been received, calling upon the President of the United States for Information relative to the practical working of the treaty conciuded with Great Britain on the with day of June, 1854, commonly called the treaty conciuded with Great Britain on the treat was stay years for run. It was, he said, completed the tales circulated about the rose of the Italian, and daprecating the discord the tales directed between members of his Cabinet by this affair, he was extractly sunious to convince them all that Mrs. Eaton was not recognized." She was not recognized. The wide he was not recognized by the lady of his own household, nor did he require that the wives of his Cabinet and the ready of the tales circulated habout to be false, and deprecating the discord generated between members of his Usbanet by this affair, he was extractly sunious to convince them all that Mrs. Eaton about the date of the tales circulated habout to be false, and deprecating the wiscon was an university of the members of the Cabinet and their families. The refusal of the ladies to be be that discord the treaty of the members for his Cabinet. To produce that,

there can be no reciprocity in the arrange-mont. It appears to have been prepared with special reference to including every article of Canadian production which can ever find a market in this country, and excluding every production of this country which could find a market in the British North American col-We purchase from Canada more of opies. the articles embraced in the schedule than the sells to all the world beside. To Canada the privilege of exporting to the United States free of duty, the articles embraced in the schedule, is one of invalculable value. It is all she could ask or desire, for the schedule embraces everything she has to export. To In then proceeded to examine the effects of this treaty upon our Federal resources.—
It is in the proper that the House should express as epinion of such transactions.

Mr. Buchanan's party seems to have the largely of the same opinion. Out of the extent of about \$50,000 a year; for, the riargely of the same opinion. Out of

our üshermen. its operations are wholly and thoroughly Shameful and Mean.

When herein was in New York last winter, he performed at a some length. Having discussed all the features involved, he said we have as a remedy for the evils to alroyate the treaty which the fathint wind their feat how were charged two childings admittantly est at they would be to any common show, let vascent we handled dilutes of the Back Republicant to to a New York. The account was paid, but the President was very adequate the charge, and at the residual was very adequate the charge, and at the residual to the full free of charge. Near of yets for the experts. Its avowed and manifest objects have been wholly perverted, and it has icin exports. Its avowed and manifest ob-jects have been wholly perverted, and it has been used as a means of defeating and utterly abolishing the internal policy which it was intended to foster and build up. In conclu-sion, he declared his intention to introduce a bill to repeal the act, with a clause declaring all imports from Canada and the other Brit-ish Provinces embraced in the treaty, subject to the same duties as an imposed. to the same duties as are imposed upon im-

ports from other countries. GOVERNMENT ESTIMATES.—A letter of Secretary Cons., addressed to Mr. Sherman, admits that his estimates for the ensuing year are \$5,000,000 short. It also appears that while there will be nearly \$5,000,000 balance in the Tressury on the 5th of July there are to come out of it about \$17,000,000 of unexpended appropriations. This exhibit and a careful scruting of the Treasury demonstrates that a loan of \$20,000,000 or \$30,009,000 will be needed next winter to pay off incumbrances of this Administration By Mr. Coun's own confession now, the expenditures will reach \$72,000,000 the next Sscal year, irrespective of what Congress

may now appropriate beyond the estimates. A TRUTURUS PICTURE .- Mr. FORNEY who writes the "Occasional" letters from Washington to the Philadelphia Press, says: "The course of the Administration leaders in Congress in regard to the investigation before the special committees is consistent with the spirit which has animated them desired by the Northern people will ever pass There is no doubt that BRIGHAM YOUNG is that body, and no Northern Democrat, who

The Tariff in Congress Despatch to the N. Y. Telliuns.

WASHINGTON, June 16. THE TABLET BILL BILLED. The Democratic majority of the Senate have killed the Tariff bill, as was anticipated, though Mr. Bigler gave assurance that the postponement would be defeated. His party friends descrited him almost in said column, leaving the Senator to explain to his constituents why some of the promises made, and expectations excited, have not been ful-On Mr. Hunter's motion to postpone till

December, the vote stood yeas 25, nays 23, excluding pairs and absenters. The affirmative vote was exclusively Democratic, and the negative Republican, except Messrs. Mr. Ames Kendall on the Breaking Up of Gen.

Jackson's Cabinet. WASHINGTON, June 7. To the Editor of the Baltimore Sun :-Your notice of the death of the Hon. S. D. Ingham, contained in your issue of this morning does, incidentally, great injustice both to General Jackson and Mr. Van Bu-

The rupture of 1831 was not between Mr Calhoun and Mr. Van Buren, as represented, but was between Mr. Calhoun and Gen. Jackson. It is true that Mr. Calhoun and his friends attempted upsuccessfully to hold Mr. Van Buren responsible for the rupture, in face of his own denial, and of conclusive testimony that it was brought about by facts and agencies over which he had no control to

due credit. I write this to enable you, by its publication or otherwise, to correct the error alluded to, and do justice to two eminent public men.

The Fashiers

Correspondence of the N. T. Journal of Commerce

Great care is bestowed by Parisian ladies on the toilette (atyled matinee) which is worn in the early morning, at the chateaux, and particularly at the fashionable watering places where the whole company assemble between 6 and 8 o'clock, around the various springs, to drink the water. These robes are generally of nankeen jaconet quilting and thin white muslin. When they are made of a mixed woolen tissue, black and white, the jackets and sleeves are bordered with green, deep blue, cherry or maroon silk. A fashionable lingerle has produced a becoming pattern

and sleeves are cordered with green, deep blue, cherry or maroon silk. A fashionable lingeric has produced a becoming pattern for matiness, in thin muslim. The skirt has one deep flounce; the jacket is a la Zouave, embroidered with open lase work, scolloped and edged with a narrow Valenciennes lace. The morning dress when of pique (quilting) has, invariably this summer, a long basquine ornamented with a berthe, or a small cape which reaches to the waist.

We have seen a new style of pocket-hand-korchief. There is a deep colored hem cut in festoons en the white cambric; above the hem, and following the ins and outs of the pattern, there is an open-work chain.

The Cambrai and Lama laces are the favorite trimmings for all mantles, shawls, bonnets, and spring toilettes. The Cambrai lace is not only much less expensive than the Chantilly, but is also much more durable; it is equally elegant in the designs, and is worn by the most extravagant and fashionably dressed Parisian women.

Perfumery occupies an important place in the annuttenance of the telegit.

dressed Parisian women.

Perfumery occupies an important place in the appurtenances of the tollette. Musk and amber, as perfumery, are banished from French salons and boudoirs, and are replaced by delightful extacts of the violettes de Parma and the Irie de Florence. The only odors admitted on an aristocratic handkerchief are violet, the Portugat, and the verveine. The more powerful odors are no longer de bon gout.

The above statement of liabilities, Lowever, does not include the voluntary deposits on which the house was doing business, which is well their real liabilities up to \$4,000,001, at the time the house obtained at doors.

As the value of the assetts, it is betieved that if the affairs of the house should be liquidated by the cours, the creditors would not receive to each on the doffar. The Government debts are certainly of but little value, and the Sonora and Tehanutepee property, which have come into the possession of the house, under various contracts, are at present of very little value.

Neverthelas, the house projectes to go on, if the creditors will permit it, under the promise to surrender each year to them, for the term of five years, 20 per cent, of the assetts, with six per cent, interest.
